FOR IMMEDIATE RELEASE 10/03/2022

A DYNAMIC LEARNING EXPERIENCE JOURNEY TO SCI-BONO DISCOVERY CENTRE

Posted March 10th, 2022 for all Lambano Academy students

March 10th, 2022, Johannesburg— Science education is important at Lambano Academy because we are surrounded by technology and the products of science every day. Public Policy decisions that affect every aspect of our lives as based on scientific evidence.

All students will be going to Sci-Bono Discovery Centre after the March school holidays are-opens because as Lambano Academy we believe that as children grow up in an increasingly technologically and scientifically advanced world they need to be scientifically literate to succeed.

Ideally, taking learners on this expedition will give them exposure to the dynamic learning experience that contribute to building South Africa's science, engineering and technology capacity and it will also equip the science educators to teach learners the scientific method to think, learn, solve problems and make informed decisions as these skills are integral to every aspect of a student's education and life from school to career.

About Lambano Academy: info@lambanoacademy.co.za based in Roodepoort, Johannesburg. A Christian school founded by Mrs. Noluthando Nyandeni in 2021.
